Land Surveying

PROJECT OVERVIEW

Since 2004, MNS has provided the City of Santa Clarita with a wide variety of specialized contract staff members.

During peak but temporary workload periods, the City asked us to provide highly-skilled staff for a variety of temporary positions.

Drawing from our extensive database of technical staff, we matched the City

Using our staff augmentation services gave the City the flexibility to utilize top-quality technical staff with extensive experience for shorter-term projects, and saved the time usually required for

recruiting permanent staff with comparable skills.

MNS staff allowed the City to complete numerous key projects in both the private and public sectors.
